Who we are

Two devoted travellers, in love with Greece.
FindinGreece has been created out of a wish to share our passion for Greece. After working for years in the tourism industry and travelling around the world, we realized how difficult it could be for visitors to discover the authentic aspect of a country, live it and experience it like “a local”.
This is what we aim to offer! The Greece we live in every day and love.

Semeli Drymonitis
A not so easily satisfied spirit, Semeli has studied and worked in architecture and education before settling in the world of tourism. Thousands of miles and long periods of travelling on five continents meanwhile, she has been strongly attracted by local cultures and has stubbornly found her way in immersing into everyday life at the places she visited by working, living in locals’ homes, learning their language and tasting their meals. She has found her place on the island of Amorgos, finally giving into a long-lasting love affair with the island, and there is nothing she enjoys more than introducing people to the simple yet profound beauty of her corner of the world.

Alix Cluet
Travelling around the world since her childhood, Alix quickly developed a strong interest for different cultures. While studying Archaeology, she realized how strong the relation between the past and the present was and the impact one can have on the other. Wishing to offer a different image of culture too often limited to the “old and dusty”, she got certified in communication and marketing and started working in tourism. She strongly believes that smart tourism can help protect ancient knowledge, keep them alive and out of museum shelves. Living in Greece for the last 6 years, she loves to share her passion and introduce people to her world. She continues travelling as much as she can.
Why Amorgos?

At the easternmost end of the Cyclades, Amorgos invites visitors to stop and discover its secrets.

For centuries considered a part of the “barren line”, up to the 80’s Amorgos was just another off-the-beaten-track island, largely unknown but to a handful of devoted visitors who defied the long and unreliable ferry trip to this wild range of mountains rising from the sea.

Since 1988 and Luc Besson’s film "The Big Blue", which made the island famous worldwide, Amorgos has embraced more travellers, still maintaining its authenticity and unique character.

Its centuries-old trails are still used by nature lovers as well as local farmers, while the simplicity of everyday life follows the seasons of the year.

FindinGreece will take you through this wonderful land, from its famous beaches and landmark Monastery up to the mountain villages, where life has remained the same for centuries. Traditional festivals, local products and a well maintained network of hiking paths will immerse you into a true travel in time.
FISHING TRIP

Be part of one of the oldest traditions of the Mediterranean.

From 100€/person*

Fishing has been one of the main activities of islanders since time immemorial. Traditional fishing boats called “kaikia” still dominate the scene at seas surrounding the Greek islands and their fresh catch quickly finds its way in local restaurant dishes. Join us on an unforgettable experience, accompanying our local fisherman to his daily fishing trip at the waters of Amorgos.

DESCRIPTION

Depending on wind conditions, our trip will start in the morning from the port of Katapola or Agios Pavlos. We will sail to a fishing area where you can try your fishing skills, guided by Giannis, our experienced fisherman. We will then set anchor at a location where you can enjoy swimming and snorkelling in crystal clear waters while Giannis prepares lunch from the catch of the day. We will enjoy our meal on board, giving us the opportunity to admire the serene marine beauty while sharing the moment with our local captain, before returning to our port of departure.

INCLUDED: 5 hour trip, fishing rod, snorkelling equipment, lunch from the catch of the day, drinks.

- Private transfers from/to your accommodation can be arranged at an extra cost. Contact us for information.

Enjoy Amorgian nature with one of our donkey rides! An exciting way to find your way through the paths of Aegiali is on the back of a donkey or mule. These animals have remained the most faithful partners of farmers, builders and other locals, joining them on their everyday labour. You can still see donkeys in the alleys of the villages and you will most probably encounter them on your hikes—or even drives!

DESCRIPTION
Our donkey ride can start from the village of Tholaria or Langada, both in the area of Aegiali. You can opt for a short ride along one of the paths exiting the villages or for a longer route that will take you further inland. Our local guide will make sure your companion donkey awaits you and will help you ride on its back. We will then enjoy a peaceful ride along the beautiful paths of Amorgos, an excellent opportunity to discover the pristine nature of the island away from the crowds. We will then return to our point of departure.

IDEAL FOR FAMILIES: Discovering some paths of Amorgos on the back of a donkey is a unique experience that no one ever forgets.

Visit a farm in the area of Aegiali and be part of everyday local life!

A peaceful world of gardens and animals is hidden in “Kambos”, the valley of Aegiali. Traditionally, this has been the heart of the northern region of the island, with olive groves and gardens (perivolia) providing locals with the produce necessary for their households. For most of its history, Amorgos used to be a quite isolated island and islanders had to provide their families with the basic means of survival themselves. Today, even though products arrive easily from the mainland and abroad, most islanders still preserve their gardens and farms and are proud of their own products, which they invite you to share with them.

DESCRIPTION

Our local farmer will introduce you to his cattle, his produce and his work. You will learn about the typical products of the region, the procedure involved in their production and you will then be able to get dirty and join the work! Around noon, we will stop and enjoy a light meal (meze) surrounded by the relaxing rural atmosphere.

FOR EVERYONE: Visiting this small and quiet farm is a wonderful opportunity for adults and children to enjoy nature.

- Private transfers from/to your accommodation can be arranged at an extra cost. Contact us for information.

**Description**

*Kato Meria* (literally the “Lower Side”) remains unknown to most visitors of Amorgos but a trip there will reward you with a pure rural Cycladic landscape and genuine hospitality. Our meeting point can be in Aegiali, Chora or Katapola, depending on your location of stay.

We will start our tour at the village of *Arkesini*, the main settlement of the area, and the Hellenistic tower of Agia Triada, a well preserved building of the 4th century BC. We will enjoy a coffee break at the traditional *kafenio* (coffee place) right next to the tower and stroll around the village, meeting people at their everyday activities.

We will then continue to *Agia Paraskevi*, the location of the biggest *panygiri* (traditional festival) of Amorgos, and its beautiful complex of cells, kitchen and other facilities that host visitors every year on July 25th and 26th. We will then continue to the beach of *Kalotaritissa*, a well protected bay at the South-Western tip of Amorgos, after passing by the bay of Liveros where the shipwreck of Olympia can be seen.

We will start our way back from the village of *Kolofana* before stopping for lunch in a well known restaurant of the area of Kato Meria, the last part of our trip.

Description
This is the best way to familiarise with the area of Aegiali, the North-Eastern part of Amorgos. Today, the asphalt road connecting Aegiali with Chora and Katapola ensures continuous communication and contact but in the past, the wild mountain range between these areas resulted to the creation of an almost “island-inside-an-island” feeling.
Our meeting point can be in any of the villages of Aegiali, but also in Chora or Katapola, depending on your location of stay.

Our tour will start at the village of Langada, where we will enjoy a beautiful stroll through the picturesque alleys, making a stop at the distillery of essential oils from local herbs and an old olive press. We will continue to the village of Tholaria, where we will visit the Byzantine museum and have a short walk through the traditional alleys.
We will then visit Potamos, a quiet village overlooking the bay of Aegiali and the surrounding islands, where we can enjoy a coffee break admiring the view. We will then head to the last stop of our tour, the port of Aegiali, with its beautiful sea front and numerous shops, cafés and restaurants.

Availability: All year round
Languages: Greek, English, French, Spanish
Difficulty level: Indicated on each description
Recommended dressing: Long pants, shirt and hiking shoes. Hat and sunglasses.
Extra indications: Bring water and sunscreen
Number of participants: 1-7 persons

PRACTICAL INFO:

Our walking tours are available all year round but some of the suggested routes may be subject to weather conditions.

We present 11 routes that cover all areas of Amorgos, but we are happy to discuss other alternatives depending on your physical abilities, hiking level and special interests.

Our tours are offered in Greek, English, French and Spanish. We strongly recommend that you take with you adequate quantities of drinking water (a 1.5 litre bottle would be sufficient for all routes from September to May but more is recommended during summer months, particularly for longer routes).

Make sure you are comfortably and adequately dressed, with long pants in order to avoid possible scratches from shrubs and appropriate hiking shoes.

While significant parts of the paths are paved with stone, you are most likely to walk on bare ground and loose stones too so shoes that protect your ankles are preferred.

Don’t forget to wear a hat and sunglasses – the Aegean sun is strong indeed!
Description
This is a beautiful walk that will take you from the wild Southern side of Amorgos to the peaceful bay of Katapola.

We will meet at the parking area of Katapola, from where we will be driven to the Convent of Agios Georgios Valsamitis. This Byzantine complex lies upon the ruins of an ancient water oracle, dedicated to god Apollon, and Sister Irene, the only nun living there, will welcome us for a visit.

We will then walk down marked path No 6 towards the area of Katapola, passing through water springs and enjoying beautiful views to Naxos and the Small Cyclades Islands. We will pass through the area of Minoa, one of the most important archaeological sites of Amorgos, and we will continue downhill towards the area of Katapola until we reach our next stop, the organic garden.

We will enjoy a light snack before being introduced by the local producer to the garden, its produce and methods of cultivation.

We will continue with a short walk through the area of Katapola valley before ending in the picturesque village of Xylokeratidi.

We can arrange transfer for you from our ending point. Please contact us for options.

• **Private transfers**: If you are staying at a different location on Amorgos, we can arrange direct transfer to the Convent of Valsamitis at an extra cost. Please contact us for information.

• **Larger groups**: Please contact us for the possibility of larger groups and their prices.

Description
This is one of the most popular hikes on Amorgos island as it follows the old path (“Palia Strata”) linking the central part of Amorgos to the area of Aegiali at the north.

We will start our walk descending from Chora, the capital of the island, towards the impressive Monastery of Panagia Chozoviotissa, the patron saint and landmark of Amorgos. We will visit the Monastery and have a close look at this amazing 1000-year-old structure and the views to the endless blue it offers.

In continuation, we will follow marked path No 1 on the southern slopes of Mount Profitis Ilias, a beautiful hike amid one of the most breathtaking sceneries of the Aegean. After passing the areas of Theoskepasti, Xenodochio and Kapsala, we will arrive at the abandoned rural settlement of Asfondylitis, where we will have lunch at the only restaurant giving life to this remote location.

We will then walk through the old village, famous for its stone engravings, continuing the path towards the area of Aegiali. **Description**

This is one of the favourite hiking routes on Amorgos and for good reason. Crossing farmland and beautiful pastures, marked path No 5 leads to the Byzantine Convent of Agios Ioannis Theologos and continues to the chapel of Stavros through a designated Natura 2000 area, with only the sound of birds and the wind disturbing the pristine silence.

We will start from the upper parking of Langada (Loza) and head towards Epanochoriani, the most important church of the area, offering amazing views amid an idyllic setting.

We will then continue uphill along the base of Mount Krikellos, until we reach the Convent of Agios Ioannis Theologos. The only nun staying there will welcome us for a visit so that we enjoy an unforgettable break.

In continuation we will either head back towards Langada or continue for another 45 minute walk alongside steep slopes towards the impressive setting of the chapel of Stavros.

Upon our return to Langada, we will stop at the traditional kafenio (coffee shop) of the village.

Description

This is a hike recommended to physically fit visitors or experienced hikers. The steep ascent is short and demands attention to most of its part but the amazing view from the top of Mount Machos, alongside the old windmills, is well worth the effort.

We will meet at the upper parking of Langada (Loza) and will follow the path to the windmills. The first part is fairly easy, approaching the foot of the mountain, where slope starts increasing until the hidden plateau of Choridakia. From there on, slopes are smoother but on windy days one can start feeling the gusts, which become more intense as we approach the top. A few minutes later we are on the crest of Mount Machos, next to the old windmills, enjoying superb views to both sides of Amorgos, reaching surrounding islands to all directions.

After we descend back, we will head to the traditional kafenio of Langada for a rest.
